

E2E Service System - Multi-Tenant SaaS Platform

1. Project Goal

Build one tool that helps your clients cut customer complaints by 20–25% and lift CSAT by +2 points in 60–90 days, with clear leadership follow-through and auditable coaching logs.

2. What is E2E Service System?

A **Multi-Tenant SaaS Platform** where:

- **E2E Team** manages multiple client organizations
- **Each client** gets their own isolated sub-account
- **Clients** run empathy training programs with measurable ROI
- **Data isolation** ensures each tenant's data is completely separate

3. Key Differentiators

Multi-Tenant Architecture

- One platform, multiple clients (tenants)
- Complete data isolation by Org ID
- Each tenant has own: branches, users, programs, metrics, billing

ROI-Focused

- Track complaints, CSAT, repeat customers
- Before/After comparisons (baseline vs current)
- Branch variance analysis (identify top/bottom performers)

Leadership Accountability

- Kickoff scheduler with commitment logging

- Weekly manager check-ins (auto-reminders)
- Executive scorecards (monthly PDF)

Behavior Adoption

- Micro-habits (10-15 min daily)
- Roleplays with scoring rubrics
- Peer recognition tied to behaviors

4. Target Users

E2E Team (Super Admin)

- Creates client sub-accounts
- Manages global templates and settings
- Monitors platform health

Client Organizations

- **Client Admin** (HR Director): Sets targets, manages org
- **Manager**: Runs huddles, assigns roleplays
- **Coach/Trainer**: Schedules sessions, scores simulations
- **Frontline Staff**: Completes habits, roleplays
- **Executive Viewer**: Read-only dashboards

5. Success Metrics

- **Complaints**: ↓ 20-25% in 60-90 days
- **CSAT**: ↑ +2 points in 60-90 days
- **Adoption**: 80%+ habit completion, 90%+ huddle attendance
- **Leadership**: 100% commitment logging, weekly check-ins

6. Core Value Propositions

For E2E Team

- Scalable SaaS platform (add clients easily)

- Recurring revenue (per-tenant subscriptions)
- Centralized template management

For Client Organizations

- Proven 90-day pilot template
- Measurable ROI (complaints, CSAT)
- Audit-ready coaching logs
- Branch-level accountability

For Managers

- 15-minute daily huddles (not full-day workshops)
- 1-tap coaching logs
- Real-time team performance

For Staff

- Simple daily habits (10-15 min)
- Gamification (streaks, badges, recognition)
- Mobile-first (PWA with offline support)

7. Platform Architecture (High-Level)

8. Core Modules

1. Client Onboarding

- Create sub-account
- Import branches/users (CSV + UI)
- Pick 90-day pilot template

2. Leadership Alignment & Accountability

- Kickoff scheduler

- Accountability calendar
- Commitment logging

3. Classroom-to-Behavior Adoption Engine

- Session planner
- Roleplays/Simulations
- Micro-habits
- Peer recognition

4. Measurement & ROI Dashboard

- CSAT, complaints, repeat customers
- Branch variance
- Before/After views
- Export (PDF/CSV)

5. Templates Library

- Leadership briefs
- Manager toolkits
- Coaching logs
- Huddle agendas

6. Notifications

- Email/SMS/WhatsApp/Teams/Slack
- Smart nudges (missed huddles, CSAT drops)

7. Integrations (Phase 2/3)

- CSAT/Ticketing (Zendesk, Freshdesk)
- HRIS (Azure AD, Google)
- Calendar (Google, Microsoft)

8. Billing (Phase 2)

- Per-tenant subscriptions
- Per-seat add-ons
- Stripe integration

9. Technology Stack

Frontend

- **Framework:** React (Next.js)
- **Language:** TypeScript
- **Styling:** Tailwind CSS
- **PWA:** Offline support, mobile-first

Backend

- **Framework:** NestJS (Node.js) or FastAPI (Python)
- **Language:** TypeScript or Python
- **API:** REST + GraphQL (optional)

Database

- **Primary:** PostgreSQL (row-level security for tenant isolation)
- **Cache:** Redis
- **Search:** ClickHouse or Postgres OLAP

Infrastructure

- **Containers:** Docker + Kubernetes
- **IaC:** Terraform
- **Storage:** Cloud object storage (S3, GCS)
- **Monitoring:** OpenTelemetry, Grafana, Sentry

10. Development Phases

Phase 1 — MVP (6-8 weeks)

- Tenants/sub-accounts
- User/role management
- Pilot template
- Sessions, coaching logs
- KPIs (manual CSV upload)
- Email notifications

Phase 2 — Adoption Engine (4-6 weeks)

- Micro-habits, streaks
- Huddles, roleplay scoring
- Peer recognition
- PDF scorecard exports

Phase 3 — Integrations & Billing (4-6 weeks)

- CSAT/Ticketing sync
- SSO + directory sync
- Stripe billing

Phase 4 — Insights (4-6 weeks)

- Branch variance analysis
- Risk alerts
- Recommendations
- Offline logging + mobile PWA

11. Non-Functional Requirements

Security

- Multi-tenant isolation (Org ID)
- RBAC (role-based access control)
- SSO (OAuth2/SAML)
- Audit logs
- Data encryption (in transit & at rest)

Performance

- p95 page load < 2s @ 5k MAU/tenant
- 99.9% monthly uptime SLA

Privacy

- Per-tenant data export/delete
- Region-aware hosting (Africa/Accra default)

Mobile

- Responsive PWA
- Offline capture (sync later)

12. Pricing Model (Example)

Starter Plan

- 1-50 users
- 1 branch
- Basic features
- \$99/month

Growth Plan

- 51-200 users
- Up to 5 branches
- All features
- \$299/month

Enterprise Plan

- 200+ users
- Unlimited branches
- Custom integrations
- SSO, dedicated support
- Custom pricing

13. Competitive Advantages

1. **Multi-Tenant SaaS:** Scale to 100s of clients on one platform
2. **ROI-Focused:** Measurable outcomes (complaints, CSAT)
3. **90-Day Pilot:** Proven template for quick wins
4. **Leadership Accountability:** Commitment logging, weekly check-ins
5. **Mobile-First:** PWA with offline support
6. **Africa-Optimized:** Timezone, low bandwidth, local integrations

14. Target Market

Primary

- Service-driven companies in Africa (Banking, Telecom, Retail, Healthcare)
- 100-5000 employees
- Multiple branches

Secondary

- Global companies with African operations
- BPOs, call centers
- Hospitality, government services

15. Go-to-Market Strategy

1. **Pilot with 3-5 clients** (free/discounted)
2. **Prove ROI** (20-25% complaints ↓, +2 CSAT ↑)
3. **Case studies** (PDF, video testimonials)
4. **Inbound marketing** (lead magnets, webinars)
5. **Outbound sales** (warm intros, cold outreach)
6. **Partner channel** (HR consultants, training firms)

16. Success Criteria

Technical

- ☐ Platform supports 10+ tenants
- ☐ Data isolation verified (security audit)
- ☐ p95 page load < 2s
- ☐ 99.9% uptime

Business

- ☐ 5 paying clients by Month 6
- ☐ Average ROI: 20%+ complaints ↓, +2 CSAT ↑
- ☐ 80%+ client retention

☐ NPS > 50

17. Risks & Mitigations

Risk	Impact	Mitigation
Data breach (multi-tenant)	Critical	Row-level security, audit logs, penetration testing
Poor client adoption	High	90-day pilot template, onboarding support
Integration complexity	Medium	Start with 1-2 integrations, expand later
Scalability issues	Medium	Kubernetes auto-scaling, load testing
Churn (clients leave)	High	Prove ROI early, monthly check-ins, customer success team
