

E2E Service System - Features & Modules

1. Core Modules Overview

Module 1: Client Onboarding

- Create sub-account
- Import branches/users (CSV + UI)
- Pick 90-day pilot template

Module 2: Leadership Alignment & Accountability

- Kickoff scheduler
- Accountability calendar
- Commitment logging

Module 3: Classroom-to-Behavior Adoption Engine

- Session planner
- Roleplays/Simulations
- Micro-habits
- Peer recognition

Module 4: Measurement & ROI Dashboard

- CSAT, complaints, repeat customers
- Branch variance
- Before/After views
- Export (PDF/CSV)

Module 5: Templates Library

- Leadership briefs
- Manager toolkits
- Coaching logs
- Huddle agendas

Module 6: Notifications

- Email/SMS/WhatsApp/Teams/Slack
- Smart nudges

Module 7: Integrations (Phase 2/3)

- CSAT/Ticketing (Zendesk, Freshdesk)
- HRIS (Azure AD, Google)
- Calendar (Google, Microsoft)

Module 8: Billing (Phase 2)

- Per-tenant subscriptions
- Per-seat add-ons
- Stripe integration

2. Feature Breakdown

2.1 Client Onboarding

Features:

- Create tenant sub-account (Super Admin)
- Set subdomain (e.g., [acme.e2e.com](#))
- Assign billing plan (Starter/Growth/Enterprise)
- Import branches (CSV or manual)
- Import users (CSV or manual)
- Assign roles (ClientAdmin, Manager, Coach, Staff, ExecutiveViewer)
- Pick 90-day pilot template

User Stories:

- As Super Admin, I want to create a tenant so that a new client can use the platform
- As Client Admin, I want to import branches via CSV so that I can onboard quickly
- As Client Admin, I want to assign roles so that users have appropriate permissions

Acceptance Criteria:

- ☐ Super Admin can create tenant in < 2 minutes

- ☐ Client Admin can import 100 users via CSV in < 1 minute
- ☐ System validates CSV format and shows errors
- ☐ Welcome email sent to Client Admin with login link

2.2 Leadership Alignment & Accountability

Features:

- Kickoff scheduler (agenda template)
- Leadership commitments (timestamped logs)
- Accountability calendar (weekly check-ins, executive reviews)
- Auto-reminders (email/SMS)

User Stories:

- As Client Admin, I want to schedule a kickoff so that leadership is aligned
- As Client Admin, I want to log commitments so that they are timestamped and auditable
- As Manager, I want weekly reminders so that I don't forget check-ins

Acceptance Criteria:

- ☐ Client Admin can schedule kickoff in < 5 minutes
- ☐ Commitments are timestamped and immutable
- ☐ Reminders sent 1 day before check-ins
- ☐ Accountability calendar shows all upcoming events

2.3 Session Planner

Features:

- Create sessions (Huddle, Roleplay, Clinic, Workshop)
- Set agenda, date, duration, attendees
- Upload materials (PDFs, videos, slides)
- Track attendance
- Send reminders (email/SMS)

User Stories:

- As Manager, I want to schedule a huddle so that my team has daily check-ins
- As Coach, I want to upload materials so that staff can prepare
- As Staff, I want reminders so that I don't miss sessions

Acceptance Criteria:

- ☐ Manager can schedule session in < 3 minutes
- ☐ Coach can upload materials (max 50MB per file)
- ☐ Reminders sent 1 day before session
- ☐ Attendance tracked (attended/not attended)

2.4 Roleplays/Simulations

Features:

- Scenario library (sector-specific)
- Scoring rubrics (1-5 scale)
- Video upload (staff can record roleplay)
- Instant feedback
- Improvement tips

User Stories:

- As Coach, I want to score roleplays so that staff get feedback
- As Staff, I want to see my score so that I know how I'm doing
- As Manager, I want to view roleplay scores so that I can identify who needs coaching

Acceptance Criteria:

- ☐ Coach can score roleplay in < 2 minutes
- ☐ Staff see score and feedback immediately
- ☐ Manager can view all roleplay scores for their branch
- ☐ System tracks application rate (% of staff who applied learning)

2.5 Micro-Habits

Features:

- Create daily habits (10-15 min actions)
- Assign to branches or individuals
- Track completion (mark done)
- Streak tracking (days in a row)
- Badges for milestones (7, 14, 30 days)
- Proof upload (photo/video, optional)

User Stories:

- As Manager, I want to assign habits so that my team practices daily
- As Staff, I want to track my streak so that I stay motivated
- As Staff, I want badges so that I feel recognized

Acceptance Criteria:

- ☐ Manager can create habit in < 2 minutes
- ☐ Staff see today's habit on mobile app
- ☐ Staff can mark complete in < 10 seconds
- ☐ Streak calculated automatically
- ☐ Badge awarded at 7, 14, 30 days

2.6 Peer Recognition

Features:

- Give kudos to colleagues
- Tag behaviors (Empathy, Teamwork, etc.)
- View kudos feed
- Leaderboard (top performers)

User Stories:

- As Staff, I want to give kudos so that I can recognize colleagues
- As Manager, I want to see kudos feed so that I can amplify recognition
- As Staff, I want to see leaderboard so that I can compete

Acceptance Criteria:

- ☐ Staff can give kudos in < 30 seconds
- ☐ Kudos appear in feed immediately

- ☐ Leaderboard updates daily
- ☐ Manager can export kudos report

2.7 Coaching Logs

Features:

- 1-tap coaching log (quick form)
- Fields: Staff name, topic, notes, evidence (photo/video)
- Approval flow (Manager approves)
- Immutable logs (cannot delete)
- Export to CSV (audit-ready)

User Stories:

- As Manager, I want to log coaching so that I can prove it happened
- As Coach, I want Manager approval so that logs are verified
- As Client Admin, I want to export logs so that I can audit

Acceptance Criteria:

- ☐ Manager can log coaching in < 30 seconds
- ☐ Logs are timestamped and immutable
- ☐ Manager can approve/reject logs
- ☐ Export to CSV includes all fields

2.8 Metrics & ROI Dashboard

Features:

- Import metrics (CSV or API sync)
- CSAT trend (baseline vs current)
- Complaints trend (% change)
- Repeat customer ratio
- Branch variance (heatmap)
- Before/After views (week 2/4/8/12)
- Export (PDF/CSV)

User Stories:

- As Client Admin, I want to import CSAT so that I can track trends
- As Executive Viewer, I want to see branch variance so that I can identify top/bottom performers
- As Client Admin, I want to export reports so that I can share with leadership

Acceptance Criteria:

- ☐ Client Admin can import 100 metrics via CSV in < 1 minute
- ☐ Trend charts render in < 2 seconds
- ☐ Branch variance heatmap shows all branches (color-coded)
- ☐ Export to PDF in < 5 seconds

2.9 Alerts & Smart Nudges

Features:

- Threshold-based alerts (habit completion < 70%, CSAT drops ≥ 2 pts)
- Smart nudges ("Missed 2 huddles", "Branch CSAT down 2 pts")
- Notification channels (email, SMS, in-app)

User Stories:

- As Client Admin, I want alerts so that I can intervene early
- As Manager, I want nudges so that I don't forget tasks

Acceptance Criteria:

- ☐ Alerts fire within 1 hour of threshold breach
- ☐ Nudges sent via email/SMS/in-app
- ☐ Client Admin can configure alert thresholds
- ☐ Alerts show in dashboard (Active/Resolved)

2.10 Templates Library

Features:

- Global templates (Super Admin creates)

- Tenant-specific templates (Client Admin creates)
- Types: Leadership brief, Manager toolkit, Coaching log, Huddle agenda
- Download as PDF

User Stories:

- As Super Admin, I want to create global templates so that all tenants can use them
- As Client Admin, I want to customize templates so that they fit my org
- As Manager, I want to download toolkits so that I can use them offline

Acceptance Criteria:

- ☐ Super Admin can create template in < 10 minutes
- ☐ Client Admin can customize template
- ☐ Manager can download as PDF
- ☐ Templates include placeholders (e.g., {org_name}, {branch_name})

2.11 Integrations (Phase 2/3)

CSAT/Ticketing Sync:

- Connect Zendesk, Freshdesk, HubSpot
- Auto-import CSAT surveys and complaints
- Daily sync (cron job)

HRIS Sync:

- Connect Azure AD, Google Workspace
- Auto-import users
- SSO (OAuth2/SAML)

Calendar Sync:

- Connect Google Calendar, Microsoft Outlook
- Auto-create events for sessions
- Send invites to attendees

Acceptance Criteria:

- ☐ Client Admin can connect integration in < 5 minutes

- ☐ CSAT syncs daily (cron job)
- ☐ Users auto-created from HRIS
- ☐ Calendar events created automatically

2.12 Billing (Phase 2)

Features:

- Per-tenant subscriptions (Starter/Growth/Enterprise)
- Per-seat add-ons
- Usage meters (active users, SMS credits, storage)
- Stripe integration
- Invoices (auto-generated)

User Stories:

- As Super Admin, I want to assign plans so that tenants are billed correctly
- As Client Admin, I want to view invoices so that I can track costs
- As Client Admin, I want to upgrade plan so that I can add more users

Acceptance Criteria:

- ☐ Super Admin can assign plan in < 2 minutes
- ☐ Stripe subscription created automatically
- ☐ Invoices sent monthly
- ☐ Client Admin can upgrade/downgrade plan

3. Feature Priority Matrix

Feature	Priority	Complexity	Impact	Phase
Tenant Management	High	Medium	High	1
User/Role Management	High	Medium	High	1
Session Planner	High	Medium	High	1
Coaching Logs	High	Low	High	1

Feature	Priority	Complexity	Impact	Phase
Metrics Import	High	Medium	High	1
Micro-Habits	High	Medium	High	2
Roleplays	Medium	Medium	High	2
Peer Recognition	Medium	Low	Medium	2
Branch Variance	Medium	Medium	High	2
Alerts & Nudges	Medium	Medium	High	2
Templates Library	Low	Low	Medium	2
CSAT Sync	Medium	High	High	3
HRIS Sync	Medium	High	Medium	3
Billing	Medium	High	High	3
Calendar Sync	Low	Medium	Low	3

4. Development Phases

Phase 1 — MVP (6-8 weeks)

- ☐ Tenant management (create, edit, delete)
- ☐ User/role management (RBAC)
- ☐ Session planner (create, schedule, attendance)
- ☐ Coaching logs (create, approve, export)
- ☐ Metrics import (CSV)
- ☐ Basic dashboards (org overview, branch view)
- ☐ Email notifications

Phase 2 — Adoption Engine (4-6 weeks)

- ☐ Micro-habits (create, assign, complete, streaks)
- ☐ Roleplays (score, feedback)
- ☐ Peer recognition (kudos, leaderboard)

- ☐ Branch variance (heatmap)
- ☐ Alerts & nudges
- ☐ Templates library
- ☐ PDF exports (executive scorecard)

Phase 3 — Integrations & Billing (4-6 weeks)

- ☐ CSAT/Ticketing sync (Zendesk or Freshdesk)
- ☐ HRIS sync (Azure AD or Google)
- ☐ SSO (OAuth2/SAML)
- ☐ Stripe billing
- ☐ Usage tracking
- ☐ Calendar sync (Google or Microsoft)

Phase 4 — Insights (4-6 weeks)

- ☐ Branch variance analysis (recommendations)
- ☐ Risk alerts (predictive)
- ☐ Offline logging (mobile PWA)
- ☐ Advanced analytics (ClickHouse)
- ☐ AI-powered insights (optional)

5. Feature Testing Checklist

Tenant Management

- ☐ Super Admin can create tenant
- ☐ Subdomain is unique
- ☐ Welcome email sent to Client Admin
- ☐ Tenant data is isolated (cannot access other tenants)

User Management

- ☐ Client Admin can import users via CSV
- ☐ Roles assigned correctly
- ☐ Users can log in
- ☐ RBAC enforced (Manager cannot access other branches)

Session Planner

- ☐ Manager can schedule session
- ☐ Reminders sent 1 day before
- ☐ Attendance tracked
- ☐ Materials uploaded successfully

Coaching Logs

- ☐ Manager can log coaching in < 30 seconds
- ☐ Logs are immutable
- ☐ Manager can approve/reject
- ☐ Export to CSV works

Metrics

- ☐ Client Admin can import metrics via CSV
- ☐ Trend charts render correctly
- ☐ Branch variance heatmap shows all branches
- ☐ Export to PDF works

Micro-Habits

- ☐ Manager can create habit
- ☐ Staff see habit on mobile app
- ☐ Staff can mark complete
- ☐ Streak calculated correctly
- ☐ Badge awarded at 7, 14, 30 days

Alerts

- ☐ Alert fires when threshold breached
- ☐ Notification sent via email/SMS
- ☐ Alert shows in dashboard
- ☐ Alert can be resolved
